

## Results of Parent/Carer Consultation Survey on Eureka's Relationships, Sex and Health Education Policy 2021

From September 2020 it became a statutory requirement for all schools in England and Wales to teach Relationships and Health Education as a fundamental part of the curriculum. At Eureka we believe that working in partnership with parents and carers is a crucial step in effectively meeting individual pupil needs and continuing to develop a policy that can support every pupil at our school.

Thank you to everyone who took part – your opinion is valuable to us in shaping our Policy.

Contributions from parents/carers of children in all year groups across the school were received in response to the survey, which has been very helpful. I am pleased to say that as the overwhelming majority agreed with the policy and teaching plan, nothing will be changed / adapted. A few responses asked for further information or clarification in some areas, which have been addressed by Mrs Johnson (our RSHE lead).
